

Compatible PDA's For Stratus Unplugged To Wirelessly Access MLS Listings

To use Stratus Unplugged, you need a Personal Digital Assistant (PDA) or Smart Phone that has a web browser and a live Internet connection, which could be from a WiFi Hotspot or through a 3rd Party Internet Service Provider. In order to use a WiFi Hotspot, your compatible device requires WiFi Capability built in or a compatible WiFi Network Card.

If you have both a web browser and Internet access on your PDA, you can try accessing Stratus Unplugged from your PDA by going to URL: <http://unplugged.mlsstratus.com> . When you get to the login page, use the same login you do for Stratus MLS.

Listed below are known devices believed to be compatible with Stratus Unplugged. Devices flagged with an ** or do not include an "integrated wireless LAN" may require additional hardware and/or an Internet Service or phone plan to connect to Stratus Unplugged.
